DRAFT SAP white paper_OCSPP management review.docx
HPPD position paper 10.6.14.docx

Everything you could hope for and more!

For HPPDs, keep in mind this was drafted a while ago and the new information that was sent in has not been incorporated. Also, there is a new ai going to ToxSAC tomorrow. I believe they have a special study with tyrosine measurements in multiple species and they sent in a NTBC developmental exacerbation study.

Thanks,

Monique
